

# TEXAS INSTRUMENTS

From connected cars to intelligent homes, from drones to door locks, our semiconductor products are at work to improve and enhance **every type of electronic system.**

**Every day, we are changing the world**

# Advancing intelligence at the edge

Scalable and efficient vision processors bring real-time intelligence to smart camera systems

## Join us for one day workshop with Texas Instruments

Program the TI EdgeAI Processor Platform to experience the cutting edge technology driving tomorrow.

### Introduction:

- March 31st / 13:15
  - Room R2.001
- April 3rd / 15:45
  - Room R0.003
